Session 1: Personal Error Analysis & Self-Introduction

Name:
Akshaya M (2620090011)

Part A: Self-Introduction, Before and After

Before (first draft; flagged items in red)

Good morning team. My name is Akshaya M. I am **pursuing my degree from** KLH Bachupally. I have **interest on coding** and **I am knowing** the basics of **Java, I have** also **done couple of** small projects. I am the type of person who is always **ready for to learn** new things. **Beside academics** I also enjoy designing posters and **this have improved** my creativity. Please **do the needful** and guide me if I **do any mistakes**.

After (corrected for clarity, register and concision)

Good morning, team. I'm Akshaya M, a student at KLH Bachupally. I'm interested in coding and know the basics of Java, and I've completed a couple of small projects. I'm always ready to learn new things. Besides academics, I enjoy designing posters, which has improved my creativity. Please guide me if I make mistakes; I'm happy to receive feedback.

Part B: AI Accuracy Check, Flagged Items and Rules in My Own Words

Flagged text	Type	Rule (my own words)	Correction
pursuing my degree from	Preposition	I study at an institution; "from" would mean the place I graduated or came from.	a student at KLH Bachupally
interest on coding	Preposition	"Interest" is paired with "in". It is a fixed pair, so I memorise them together.	interested in coding
I am knowing	Stative verb	Verbs about knowing or feeling describe a state, so they stay in the simple present, not the -ing form.	I know
Java, I have	Comma splice	Two complete sentences cannot be joined by a comma alone.	Java, and I have
done couple of	Article	"Couple" is a countable noun and needs "a" in front of it. Projects are "completed" more naturally than "done".	completed a couple of
ready for to learn	Preposition plus infinitive	"For" and "to" do not stack. "Ready" goes straight into "to" plus a verb.	ready to learn
Beside academics	Confused words	"Beside" means next to; "besides" means in addition to. A comma follows the opening phrase.	Besides academics,
this have improved	Subject-verb agreement	"This" is singular, so the verb must be "has".	which has improved
do the needful	Vague idiom	It hides the action I actually want. In formal writing I name the action.	guide me
do any mistakes	Collocation	Mistakes are "made", not "done". Words have partners that must be learned together.	make mistakes

Part C: Personal Error Log

Recurring error	Rule	Example	How I will catch it
Prepositions (from, on, at, in)	Prepositions belong to fixed pairs: study at, interest in. I learn each with its partner word, not by translation.	interest on -> interest in	Keep a mini list of verb/noun + preposition pairs.
Stative verbs in -ing	Know, like, want and understand describe states, so they use simple present.	I am knowing -> I know	Ask: is this an action or a state?
Comma splices	Two complete sentences need a full stop, semicolon or conjunction, not just a comma.	Java, I have -> Java, and I have	Check whether both sides stand alone.
Confused words and collocations	Some words look alike (beside/besides) and some verbs only pair with certain nouns (make mistakes).	Beside -> Besides; do mistakes -> make mistakes	Look up unfamiliar pairs before using them.
Vague idioms	Phrases like "do the needful" hide the action. Formal writing should state it.	do the needful -> guide me	Replace every idiom with a plain verb.

Part D: Reflection

1. I already knew that "beside" and "besides" differ, but I had never thought of "do the needful" as vague until the AI marked it.

2. Prepositions were the most flagged group, and they are the errors I repeat the most.

3. Going forward I will learn each preposition together with its noun or verb partner.
