Session 1: Personal Error Analysis & Self-Introduction

Name:
G Sahasra (2620090001)

Part A: Self-Introduction, Before and After

Before (first draft; flagged items in red)

Hi all, I am G Sahasra, **and i am glad for joining** this team. **I am study in** KLH Bachupally, CSIT, and Java is **the subject which I am learning now**. In our class **we has made** a meal planner and a hotel booking system, **both of them was** just **beginner level projects**. **My strength are** that I am a quick learner, **and also I am very much dedicated person**. I would like to know about everybody's working style so that we can **work together good**.

After (corrected for clarity, register and concision)

Hi all, I'm G Sahasra, and I'm glad to join this team. I study CSIT at KLH Bachupally and am currently learning Java. In class, we built a meal planner and a hotel booking system, both beginner-level projects. My main strength is that I learn quickly and stay committed to my work. I'd like to hear how each of you prefers to work so that we can collaborate well.

Part B: AI Accuracy Check, Flagged Items and Rules in My Own Words

Flagged text	Type	Rule (my own words)	Correction
and i am	Capitalisation	The pronoun "I" is always a capital letter, wherever it appears in a sentence.	and I am
glad for joining	Verb pattern	After feeling words like glad or happy, I give the reason with "to" plus a verb.	glad to join
I am study in	Verb form, preposition	"Am" needs an -ing verb, but a simple present "study" is shorter. A place of study takes "at".	I study at
the subject which I am learning now	Wordiness	I can state the fact directly instead of describing Java as a subject I am learning.	am currently learning Java
we has made	Subject-verb agreement	"We" is plural, so it cannot take "has". The simple past "built" is clearest.	we built
both of them was	Subject-verb agreement	"Both" always means two, so the verb must be plural.	both were
beginner level projects	Hyphenation	Two words that team up to describe a noun are joined with a hyphen.	beginner-level projects
My strength are	Subject-verb agreement	The verb agrees with the head noun "strength", not with the words that come later.	My main strength is
and also I am very much dedicated person	Article, redundancy	A singular countable noun needs "a". "And also" doubles the link, and "very much" adds nothing.	I stay committed to my work
work together good	Adverb vs adjective	Verbs are described with adverbs. "Good" describes nouns; the adverb is "well".	collaborate well

Part C: Personal Error Log

Recurring error	Rule	Example	How I will catch it
Subject-verb agreement (has, was, are)	The verb follows the real subject. "We" and "both" are plural, and a singular head noun like "strength" takes "is".	both of them was -> both were	Find the subject before choosing the verb.
Capital "I"	The pronoun I is always capitalised, even in the middle of a sentence.	and i am -> and I am	Search the draft for a lone lowercase i.
Adverb vs adjective	Verbs take adverbs. I use "good" to describe a noun and "well" to describe an action.	work together good -> collaborate well	Ask: is this word describing a noun or a verb?
Verb patterns after feelings	Glad, happy and excited are followed by "to" plus a base verb for the reason.	glad for joining -> glad to join	Say the pattern aloud with a known phrase: happy to help.
Articles and hyphens	A singular countable noun needs a or the, and compound modifiers before a noun need a hyphen.	very much dedicated person -> a dedicated person; beginner level -> beginner-level	Check every singular noun for its article.

Part D: Reflection

1. The AI check flagged the lowercase i and the agreement errors straight away; I knew those rules, but typing fast hides them.

2. The patterns I knew least were "glad to + verb" and hyphenating "beginner-level", so those were genuinely new to me.

3. I will keep a short checklist of agreement, adverbs and articles to review before I submit anything.
