Part A: One Message, Three Audiences

Core message: We need everyone's input on the draft by Friday so that we can finalise it on Monday.

Peer version

Can you send me your comments on the draft by Friday? I want to lock it in on Monday, so earlier is better.

Annotations

- Register: conversational, using "lock it in" and a direct question.
- The deadline comes with its reason, so the peer knows why it matters.
- "Earlier is better" is a friendly nudge, not an order.
- It is short because a peer needs only the ask and the date.

Manager version

I have asked the team to send comments on the draft by Friday so that we can finalise it on Monday. I will share the final version with you then. Please let me know if you would like to add your own comments before Friday.

Annotations

- Register: professional report on progress, since the manager is informed, not asked to act.
- "I have asked" shows ownership and initiative.
- It states when the manager will next receive something.
- The last line offers the manager a chance to contribute without pressure.

Client version

We would be grateful if you could share your feedback on the draft by Friday. This will allow us to finalise the document on Monday. Thank you for your time and cooperation.

Annotations

- Register: formal and courteous, built on "would be grateful if you could".
- "Feedback" is used instead of "comments" and sounds more collaborative.
- The benefit to the client is stated, which explains the deadline politely.
- It closes with thanks rather than a command.

Part B: Three Ambiguous Sentences, Rewritten

Ambiguous sentence	Two possible meanings	Clear rewrite	Rule and why it works
The new policy applies to employees and contractors who work remotely.	Only contractors need to work remotely, or both employees and contractors do.	The new policy applies to all employees and to contractors who work remotely.	A modifier after "A and B" may refer to B only or to both. Adding "all" and repeating "to" makes the split visible.

Ambiguous sentence	Two possible meanings	Clear rewrite	Rule and why it works
Mia met Priya before she left for Hyderabad.	"She" is Mia or Priya.	Mia met Priya before Priya left for Hyderabad.	When two people of the same gender are named, a pronoun can point to either. I repeat the name where it matters.
Visiting clients can be tiring.	Going to see clients is tiring, or clients who visit us are tiring.	Going to see clients can be tiring.	An -ing word can be a gerund (an action) or an adjective. A plain verb phrase removes the doubt.
